

# VERTICAL LIFTING CLAMP WITH UNIVERSAL SHACKLE (SVC-E)

## TWO-YEAR WARRANTY

## TECHNICAL SHEET

Lightweight clamp primarily designed for vertical lifting of steel plates. The unique design of this clamp also makes it possible for lifting work piece in any directions.

- The universal shackle allows the cam to generate a clamping force on the work piece no matter which direction it is pulled.
- The spring-loaded tightening lock mechanism assures a positive initial clamping force.
- The clamping force increases in proportion to the weight of the load.
- The main body and the shackle are made of die-forging which is optimally tempered for maximum strength and durability.
- High-frequency quenching of special alloy steels gives greater durability to the cam.
- The main body is a baked-on finished.
